

Architectural Particular Specification

GENERAL REQUIREMENTS

SECTION 1.1

Rev	Date	Description
0	14 APR 2022	First Issue

SECTION 1.1

GENERAL REQUIREMENT

PART 1 - GENERAL

1.01 INTRODUCTION

The purpose of this section is to provide the user with a guide to the structure of the Particular Requirements – Architectural Specification Document, and the relationship to the architectural Contract Drawings and Schedules.

1.02 GENERAL SPECIFICATION

A. Where there is any provision of which Particular Specification of this Contract has not covered, the following standard specification and technical standard will be used to supplement the Particular Specification of this Contract as below:

- (a) British Standard and Codes of Practice of current edition published by British Standard Institution.
- (b) The General Specification shall refer to the General Specification for Building (2017 Edition) by Architectural Services Department Government of HKSAR
- (c) General Specification for Civil Engineering Works published by Civil Engineering Office and Highways Department, latest Edition.
- (d) General Specification for Air-conditioning, Refrigeration, Ventilation and Central Monitoring and Control System Installation in Government Buildings issued by the Building Services Branch, Architectural Services Department, latest edition.
- (e) General Specification for Electrical Installation in Government Buildings Hong Kong issued by the Building Services Branch, Architectural Services Department, latest edition.
- (f) General Specification for Fire Services Installation in Government Buildings, Hong Kong issued by the Building Services Branch, Architectural Services Department, latest edition.
- (g) All electrical services installation shall be installed throughout in accordance with the latest edition of IEE Regulation and regulations/rules of all statutory authorities having jurisdiction over the work.
- (h) All building services installation shall comply with the Code of Practice for Energy Efficiency of Building Services Installation issued by EMSD, latest edition.
- (i) All electrical installation works shall comply with the relevant regulations of latest edition and to be certified by an Approved Engineer (The submission of relevant certificates shall be inclusive).

- (j) Code of Practice for Safe Use and Operation of Suspended Working Platforms & Code of Practice for Bamboo Scaffolding Safety published by Labour Department.
 - (k) Hong Kong Waterworks Standard Requirements for Plumbing Installation in Buildings published by Water Supplies Department
 - (l) ISO 14001 – Guidance Note (Page ISO/1 – ISO/7)
- B. Where any ambiguity, discrepancy or conflict arises between the General Specification and the Particular Specification of this Contract, the Particular Specification shall take precedence.
- C. As British Standard or other Codes and Standards are amended from time to time, the contractor shall ensure that his works comply with latest edition of the Codes and Standards demanded in this Specification current at the date of tender enquiry. No claims whatsoever by the reasons of the above will be allowed within this Contract.
- D. The works to be carried out under this contract/quotation shall be consistent with good practice in Hong Kong and to the satisfaction of the Architect.
- E. The Contractor must acquaint himself with this specification as neglect or failure on his part to do so will not relieve him from complying with the said specification.
- F. Where Codes and Standards are not defined specifically, the appropriate British Standards shall be deemed to apply. In the event of conflict between any referenced Code or Standard and this Specification, the more stringent requirement shall have preference.
- G. In case of any disputes or discrepancies on the standard of Specification, workmanship and materials and any interpretation of any clauses and contents of the contract documents, the decision of the Architect shall be final and binding.

- A. The Architectural Specification is divided into sections and indicated within the Table of Contents
- B. Each section details the requirements under categories which include some or all of the following:
 - 1. Part 1 - GENERAL
 - a. Summary of Work
 - b. References
 - c. Quality Assurance
 - d. Performance Requirements
 - e. Environmental Requirements
 - f. Environmental, Climatic & Psychometric Conditions
 - g. Submittals
 - h. Pre-Installation Conference
 - i. Delivery Storage and Handling
 - j. Mock-ups
 - k. Testing
 - l. Warranty and Maintenance Bond
 - m. Extra Materials
 - 2. Part 2 - PRODUCT
 - a. Approved Manufacturers
 - b. Materials and Systems
 - c. Ancillary Materials
 - d. Fabrication
 - e. Finishes/Finishing Treatments
 - f. Storage
 - g. Workmanship
 - h. Inspection (Prior to Shipping)
 - 3. Part 3 - EXECUTION
 - a. Examination and Inspection
 - b. Preparation and Co-ordination
 - c. Installation and Application
 - d. Tolerances
 - f. Field Quality Control
 - g. Cleaning and Protection
 - i. Adjustment
 - j. Maintenance Agreement
 - k. Maintenance Manual
