SECTION 1.3

SUBSTITUTION PROCEDURES

PART 1 GENERAL

1.01 SUMMARY

- A. Section Includes:
 - 1. Administrative and procedural requirements for handling and processing, material, product and equipment substitutions.
 - 2. Substitution Request Form (SRF) is attached at the end of this Section.
- B. Related Sections:
 - 1. Section 1.5 Submittals Procedures
 - 2. Special Conditions of Contract, and Preliminaries.

1.02 QUALITY ASSURANCE

- A. Items, materials, products and equipments are specified by performance criteria, or by using proprietary brand names and model numbers, to set standards of quality, aesthetics, material construction, and technical performance standards. The Contract Sum and rates include for the provision of these specified proprietary brands of items, materials, products and equipments.
- B. The Main Contractor shall only be allowed to use alternative items, materials, equipments and products to those specified in the Contract Documents if it can be proved to the satisfaction of the Architect that the specified or approved materials have gone out of production or are otherwise unobtainable after the award of Contract. The proposed alternative items, products, equipments, or materials shall be subject to the approval of the Architect. In the event that the approved alternative materials are lower in cost, corresponding reductions in the Contract rates will be made. Should the alternative materials approved be more expensive, no adjustment will be made to the Contract rates.
- C. The Architect's decision as to whether the alternative materials, aesthetic effect, and workmanship are equal to those originally specified shall be final. No claim shall arise from any rejection, nor, unless otherwise agreed, shall adoption of an alternative be ground for any claim for variation to the Contract Sum or prolongation of the Contract completion time.

1.03 PROCEDURE

- A. The Contractor shall submit, to the Architect, along with the Substitution Request Form full details of the proposed alternative together with supporting information on the price of the alternative and, for comparison, full details of the specified proprietary brand of material, product, or equipment.
- B. In the event that the alternative material is approved by the Architect, the Quantity Surveyor will reduce the appropriate Contract rate(s) by the net difference in cost between the specified brand and the alternative material, where the alternative material is lower in cost. In no circumstances will an increase in the Contract Sum extension of Project contract completion time be allowed.
- C. Where acceptable alternative items, products, equipments, or materials are given in the Specification, the Contractor shall provide one of the specified brands, within the

parameters identified in the Specification. Materials or products of different brands or manufacture will not be acceptable. No adjustment in rates will be made irrespective of which of the specified alternatives is provided.

- D. Submit Substitution Request Form (SRF) to the Architect with a copy set to the Project Manager and Quantity Surveyor. Submit one substitution request per form and number each separate form sequentially.
- E. The Architect will review substitution requests from the Contractor with reasonable promptness and the Contractor will be notified in writing of the decision made.
- F. Maintain log of Substitution Request Forms sent to, and responses from, the Architect. Fax substitution request log every month to the Architect and the Quantity Surveyor.
- G. The Contractor shall submit product data, technical performance information, installation instructions, and product samples along with the Substitution Request Form to the Architect for review.

1.04 SUBSTITUTION REQUEST FORM (SRF)

- A. Submit substitution requests on the attached form. The Architect will not respond to substitution requests unless this form is utilized.
- B. Where the Substitution Request Form does not provide enough space needed for a full and complete description, additional sheets may be attached.
