China State Construction Engineering (Hong Kong) Limited

INTEGRATED MANAGEMENT POLICY

The core business of China State Construction Engineering (Hong Kong) Limited is the design and construction of multi-disciplinary projects including building, civil, foundation, mechanical & electrical, and construction products.

The Company is conscious to fulfill its statutory and contractual obligations, and is committed to providing quality services and products to its customers; maintaining a high standard of working environment in compliance with applicable requirements on quality, safety & health and environmental protection; as well as protecting the safety and health of all employees, sub-contractors and members of the public likely to be affected by the company operations. In addition, effective communication and consultation channels are established, education and training programmes provided, and reasonably practicable steps taken to satisfy the expectations and needs of customers, employees and the public.

The Company established an Integrated Management System (IMS) Committee and through determination of the risks and opportunities to plan, formulate and implement the Company policies, objectives and targets, in accordance with the requirements of the ISO 9001: 2015, OHSAS 18001: 2007 and ISO 14001: 2015, to continually improve the quality, safety and health, and environmental performance of the Company. The IMS Director appointed by the Company shall be responsible for monitoring and reviewing the overall performance of the IMS.

The prime IMS objectives of the Company are to ensure strict compliance with both statutory and contractual requirements, improve customers' satisfaction, eliminate legal prosecutions and serious incidents, prevent environmental pollution, reduce generation of construction wastes, minimize the consumption of natural resources and employ only legally employable workers.

The Company shall continuously review and improve the IMS Framework to enhance the quality, safety and health, and environmental performance of the Company.
