China State Construction Engineering (Hong Kong) Limited

Integrated Management Policy

The core business of China State Construction Engineering (Hong Kong) Limited is in the design and construction of multi-disciplinary projects including building, civil, foundation, mechanical & electrical, and construction products.

The Company is conscious to fulfill its statutory and contractual obligations, committed to provide quality service, products to its customers and a high standard of working environment on quality, safety & health, and environmental protection, as well as protection to employees, sub-contractors and general public that is affected by its construction operations. In addition, all reasonably practicable steps are taken to provide effective channels of communication and consultation, education and training to enhance and satisfy the expectations and needs of customers, employees and general public.

The Company has, in accordance with the requirements of the ISO 9001: 2015, ISO 45001: 2018 and ISO 14001: 2015, established an Integrated Management System (IMS) Committee to plan, formulate and implement company policies, objectives and targets to continuously improve on quality, safety and health, and environmental protection arrangements. The Company shall appoint an IMS Director to be responsible of supervising the performance and effectiveness of the implementation of the IMS.

The prime IMS objectives of the Company are to comply with legal and other requirements, improve customers' satisfaction, eliminate legal prosecutions and serious incidents, prevent environmental pollution, reduce construction wastes; minimize the consumption of natural resources and to employ only legally employable workers.

All employees, sub-contractors and suppliers shall conform and be responsible for the effective implementation of the IMS requirements as stipulated in the IMS Framework.

The Company shall continuously review and improve on the IMS Framework to enhance the performance of the Quality, Safety and Health, and Environmental Protection.
